INTRODUCTION

The purpose and scope of this catalogue is to provide a single source that lists all the audiovisual resources held by the Alberta Provincial Film Library. We intend to issue revised editions periodically. To receive notice of them, fill in the Mailing List Request Form on page 193.

We hope you find the catalogue useful. A Feedback Form, on page 195, has been included for suggestions that will be considered in preparing the next edition.

Principal credit for the compilation and editing of this catalogue goes to Rita Murray. Betts Passmore is responsible for all the word processing and typesetting interfacing in the production of the catalogue.

GENERAL INFORMATION

General Information

The Provincial Film Library has a collection of approximately 2000 audiovisual resources, including 16 mm. films, videotapes, filmstrips, and slide sets. Audiocassettes, recordings, discussion guides, and scripts accompany many of the items.

Resources are loaned free of charge to all Alberta residents 18 years of age and over.

The collection covers subjects such as health, parenting, hunting, sports, tourism, consumer affairs, emergency planning, fire fighting, driver safety, etc.

Resources are deposited with the Library, but are owned by various provincial government departments and agencies. The Library provides centralized storage, booking, shipping and maintenance services. If your department would like to utilize these services, contact the Supervisor of the Library.

Equipment to view resources is available free of charge to provincial government departments and agencies. Loans should be arranged through the Audio Visual Tool Crib (427-4384). Non-government borrowers will need to loan or rent equipment from other sources, such as public libraries, rental agencies, and related services

Office hours: 8:15 a.m. - 4:30 p.m., Monday - Friday

To Borrow Resources

For resources beginning with the call number "PST" contact the Parks and Recreation Department directly.

Dallas Richard
Alberta Parks and Recreation
8th Floor, Standard Life Centre
10405 Jasper Ave.
Edmonton, Alberta
T5J 3N4

(403) 427-2725

For all other resources, the following points apply.

Placing an Order

Resources may be booked; or, they may be picked up without a reservation, if available.

Bookings are accepted from 2 days to 6 months in advance of showing times, by phone or in writing. If writing, use the Film Orders form (AGS 5253) if available. Copies of the forms are available from the Library free of charge. (Ordinary letters are also acceptable.)

For each resource, state its title, call number, and showing date(s). Suggest alternate titles and/or dates if substitution is acceptable.

Phone orders are confirmed immediately. Mail orders are confirmed by mail. Confirmations indicate: (1) titles booked; (2) pick-up date (for local orders) or shipping date and method of delivery (for out-of-town orders); (3) due date.

"Local Orders": those from Edmonton, St. Albert, and Sherwood Park areas.

"Shipping Date": date on which resources are shipped from the Library, ranging from 2 - 5 days before the showing date (depending on the destination)

"Due Date": date by which resources must be received **in the Library.**

Loan Period

The normal loan period is 5 days exclusive of weekends and public holidays. Extended loans are made under special circumstances.

Renewals

Renewals are accepted for resources not already booked by another user.

Change or Cancellation of Orders

Notify the Library before the pick-up/shipping date if you wish to change or cancel orders.

Pick-up or Delivery

Local orders are picked up from the library on the pick-up date by borrowers. The person picking up resources need not be the person who placed the order.

Out-of-town orders are shipped via Courier or by mail on the shipping date.

Alberta Government orders, both local and out-of-town, are shipped via Government Courier if they cannot be picked up.

To Return Resources

The following points apply to **all** resources.

Do not rewind films after the last showing. Our film inspection process automatically rewinds them.

Resources must be returned in containers supplied by the Library.

In Person

Bring the resources to the Library on or before the due date. (There is a bin for after-hours return on the east side of the building.)

By Government Courier, Private Courier, Mail

Borrowers must pay for return shipping charges.

Ship the resources at least 1 to 5 days before the due date, depending on the method of shipment.

Use the shipping label enclosed with your order.

For a list of Courier service points, see page 189.

Responsibilities of Borrowers

Excessive Damage and Loss

Borrowers (whether individual or institutional) are responsible for loss of, or excessive damage to, resources.

"Excessive Damage":

- **any** damage to **film** in excess of 3 metres
- deep scratches
- damage to sprocket holes in excess of 30 cm.
- fire or water damage

Normal wear is considered minor scratches, occasional torn sprocket holes, a clean break, or damage to blank leaders.

Do not attempt to tape or repair damaged resources. Enclose a note when returning the item describing the damage.

Prompt Return

Resources must be received by the Library **no later than** the due date.

Return Shipping Charges

Borrowers pay return shipping charges.

Restrictions

Resources may not be duplicated.

Resources are for non-commercial use only.

Resources may not be aired or televised without written permission of the owning department.

Resources are normally restricted to use within Alberta.

Borrowers must be 18 years of age and over.

When there are several requests for the same resource, priority is given to borrowers from the department that owns the resource.

User restrictions placed by departments on certain resources are included with the descriptions for those resources in the "Resources by Title" Section.

Normally, 4 to 6 resources may be borrowed at a time.

To Use the Catalogue

There is a descriptive listing of resources ("Resources by Title") and one index (the Subject Index) in this edition. Instructions for use precede each section.

Please advise us of changes you'd like to see incorporated into subsequent editions. Use the Feedback Form on page 195.

RESOURCES BY TITLE

Introduction

Records and cassettes are included in this catalogue only when they are accompanied by films, filmstrips and other visual resources.

Title Arrangement

Resources are listed and described in the Alphabetical Listing in title order:

- ignore initial articles "A", "An", and "The"
- numerals at the beginning of a title are spelled out
- abbreviations are alphabetized as is (i.e., are not spelled out)
- series titles are interfiled with resource titles

Descriptions

Descriptions for most resources are based on secondary information, **not** on examination of the resources themselves. If you discover incongruities between the description for a resource and the resource itself, please notify us using the Feedback Form on page .

Descriptive Elements

Below are 2 examples of entries in the catalogue, with descriptive elements (the various parts of the description) enumerated. Each element is then explained.

SUBJECT INDEX

Introduction

To Find Resources

To find resources on a particular subject, simply look in the Index under that subject term. The indexing system allows you to use specific terms; references will guide you to related subject areas and, where necessary, to preferred terms. Each subject term lists the titles of resources revelant to that subject.

For **descriptions** of resources, consult the Resources by Title, starting on page 1.

Examples:

CANOEING

Broader Term: RECREATIONAL ACTIVITIES

CANOEING
FUNDAMENTALS OF CANOEING
PADDLE AND PORTAGE: THE ART OF CANOEING

SUPERVISORY METHODS

Approaches or techniques for directing or overseeing indivduals or work in progress - may include evaluation.

EYE OF THE SUPERVISOR
SUPERVISOR: MOTIVATION THROUGH INSIGHT

Alphabetical Arrangement

Terms are in alphabetical order, with the following exception: compound terms follow combined terms (when the initial words are the same).

'Compound terms': those comprised of more than one word, not separated by a period, and all in upper case (example: BEHAVIOR MODIFICATION)

'Combined terms': those comprised of more than one word, separated by a period; words following the period are in upper and lower case (example: BEHAVIOR. Preschool Children).

Example of Arrangement:

BEHAVIOR
BEHAVIOR. Adolescents
BEHAVIOR. Preschool Children
BEHAVIOR COUNSELING
BEHAVIOR MODIFICATION

Terminolgy

The *Thesaurus of ERIC Descriptors,* 1982 edition, was used to maintain consistency in term usage, to avoid scattering identical subjects under various terms, and to provide a cross reference structure.

Emphasis on Major Subjects

Subject terms cover the main focus or major subject(s) of a resource (ie., what it is primarily **about**). Related concepts or implied subjects are not indexed.

Example:

A resource about the various methods of contraception is indexed under 'CONTRACEPTION' (the major subject). It is **not** indexed under 'SEX EDUCATION' (a related concept), even though an instructor may wish to use the resource in a sex education course. (Resources indexed under the term 'SEX EDUCATION' have as a major subject educational techniques that instructors use in imparting information on sexual matters.)

Derivation of Major Subjects

To be 'major', a subject needs to account for at least 20% of the content of the resource. We attempted to determine major subjects from the emphasis given in the annotations.

Specificity

Indexing is as specific as possible. This means that very general terms are not used unless the subject is treated extremely broadly in the resource.

Example:

A filmstrip about cancer will be indexed under 'CANCER' not 'DISEASES'. A videotape about tennis will be under 'TENNIS' rather than 'RECREATIONAL ACTIVITIES'.

References are provided from very broad terms to related specific terms, for those users unaccustomed to specific searches.

Context

Subjects are placed in context (precoordinated) whenever possible. This is done by combining terms.

Example:

A film about Alberta's natural resources is indexed under 'ALBERTA. Natural Resources', rather than under the separate terms 'ALBERTA' and 'NATURAL RESOURCES'. Similarly, resources about the relationship between smoking and cancer are indexed under 'SMOKING. Related to Cancer'.

Permutation

Since people approach subjects differently, most combined terms are permuted. This means, for example, that users can find films on Alberta's natural resources by looking in the Index under 'ALBERTA. Natural Resources' or under 'NATURAL RESOURCES. Alberta'. Resources on the smoking/cancer relationship are listed under 'SMOKING. Related to Cancer' **as well as** under 'CANCER. Related to Smoking'.

References and Scope Notes

Some index terms are explained in scope notes. These notes indicate how the term is being used in the Index, and do not necessarily correspond exactly with a dictionary definition.

Four kinds of references can be found in the Index.

'Use' refers you from synonomous terms to the preferred term (the one used in the Index)

'Broader Term(s)' are linked hierarchically to the index term. They belong to the same class, but represent a **broader** aspect or meaning. Use a broader term when the index term is too specific.

'Narrower Term(s)' are also linked hierarchically to the index term; they represent a **narrower** aspect or meaning. Use a narrower term when the index term is too general.

'Related Term(s)' are closely related in meaning to the index term, but are not broader or narrower than it. Use a related term when you want resources on similar (related) subjects.

Examples:

ACCIDENT PREVENTION

Use: SAFETY

WASTE DISPOSAL
